

August 1, 2025

Trinity creates a welcoming and safe school climate. They encourage opportunities for a positive connection between students and teachers. Trinity has several areas for the students to de-stress and reset.

Students can go to the Guidance Counseling area, the Dean of Students (Mr. Miller) office, or the Port.

The Health class course covers nutrition, healthy relationships and substance abuse.

Physical Education class covers many different physical activities.

Our cafeteria, in connection with the NSLP, provides nutritious and healthy options for breakfast and lunch.
